*Sale Creek Volunteer Fire Dept.
14828 Dayton Pike
Sale Creek, TN 37373*

*Registration at SERTC.org
Contact Sam Oldham for more details
(423) 421-8348 samiam2861@aol.com*

CLASSES INCLUDE:

AWR-290 Railroad Safety Awareness (RSA) – DHS/FEMA-Funded

This course is an excellent way to get your entire department up to speed on railroad terminology, procedures, organization, and response methods. All you need is a place to host the training and we provide the rest.

PER-331 Surface Transportation Emergency Preparedness and Security – Senior Officials (STEPS-SR) – DHS/FEMA-Funded

This 4-hour course is an excellent way for those in a leadership or senior official role to learn how to prepare for a surface transportation emergency.

PER-326 Surface Transportation Emergency Preparedness and Security – Freight (STEPS-FR) – DHS/FEMA-Funded

The movement of freight through our communities is a critical part of our way of life, but occasionally things don't go through as smoothly as we would like. The two primary ways that freight is transported is by rail and highway, so we created a 16-hour class that helps you prepare for incidents involving either! This course leans heavily on the Threat and Hazard Identification and Risk Assessment (THIRA) process so that the planning and emergency operations plans that you put in place are interoperable with those of your surrounding communities...and the Federal Plan
